

DIGITAL COGNITIVE BEHAVIORAL THERAPY FOR INSOMNIA (CBT-I)

Information for this guide based on data submitted by digital CBT-I marketers. Sleep Review strives for accuracy in all data but cannot be held responsible for claims made by marketers. All digital CBT-I options may not be included. Email sroy@medqor.com to be considered for the next update.

Company		BetterNight	Big Health
			
Program		BetterNight Insomnia	Sleepio
Website		betternight.com	sleepio.com
Description		BetterNight Insomnia is a personalized program that is led by Derek Loewy, PhD, co-founder of the Stanford University Insomnia Program. Experience the benefits of an evidence-based program with detailed feedback to improve your sleep and unlock better health, happiness, and energy.	Sleepio is a stigma-free, engaging, and instantly accessible sleep solution featuring proven cognitive and behavioral techniques. Sleepio is clinically proven with over 40 peer-reviewed papers, including 12 randomized control trials, that demonstrate its efficacy.

<p data-bbox="107 395 520 596">DrLullaby provides custom plans alongside video coaching with doctoral experts. We focus on plans for families, helping children and parents get the sleep they need. The iOS application includes research-backed lessons on behavioral strategies alongside sleep logging to monitor progress. This platform serves as an excellent companion tool alongside doctors' visits.</p>	<p data-bbox="545 385 958 609">Night Owl - Sleep Coach provides a treatment program for those experiencing difficulty initiating or maintaining sleep. It includes handouts and video presentations created by a psychologist and expert in behavioral sleep medicine. Videos, reading material, and daily tasks guide users through the program and provide a rationale for each step. The program takes 56 days to complete but often improvement will be experienced earlier.</p>	<p data-bbox="984 410 1403 584">Somryst is the first and only prescription digital therapeutic for chronic insomnia in patients 22 years of age and older that's delivered on your mobile device. Somryst delivers cognitive behavioral therapy for insomnia over 9 weeks. Somryst was named the 2020 Best Digital Health Product Galien Prix by the Galien Foundation.</p>
