| Website | Not provided | www.padacheek.com | www.sleepsnugz.com/buy-it-now/full-face |
| Description | Designed for hospitals and sleep labs to assist with many of the problems experienced by CPAP users. Fast for medical professionals to affix and remove; creates a better seal between mask and face; reduces noisy air leaks; minimizes skin irritations; absorbs moisture. | Each of our liners is designed for a specific mask. Soft, smooth, washable, durable, and reusable, our liners secure around a mask and stay with it when it is removed. Many have a Nose Pad built into the design to protect the bridge of the nose. If you don't see what you need, PAD A CHEEK can design it. | Snugz Full Face Mask Liners are machine washable, one-size-fits-most liners designed for most mouth-and-nose masks. They help reduce noisy leaks, prevent redness and irritation, and feel great against your skin. |
| Compatible CPAP Masks | full face masks | ResMed AirFit F20/AirTouch F20 | All sizes of all nose-and-mouth masks except for the ResMed Mirage Quattro, the extra-large Fisher and Paykel Forma, and the large Respiration ComfortGel. They are also not recommended for under-the-nose masks such as the Respiration Amara View or DreamWear and the ResMed F30, or total face masks such as the Respiration FitLife. |
| Materials | 98% cotton, 2% Lycra | microfiber | nylon, polyester, Lycra |
| Fitting & Attachment | Available in Small, Medium, and Large. Three tabs affix directly to the mask. | Remove the headgear, line up the teardrop-shaped hole over the nose/mouth hole of the mask. Slide the arms of the mask into the slots of the liner. Secure with the Velcro. | Stretch the liner to fit over the mask. |
