Description	Made in the USA with organic bamboo silk, Dream Mouth Tape is soft on skin while promoting nasal breathing. Bamboo silk naturally fights bacteria and germs. The medical-grade adhesive is hypoallergenic and strong. Works best for all skin types, face shapes, and sizes. Works great with beards and CPAP machines. Stays on for 12+ hours.	The most badass beard-safe mouth tape.	MyoTape features a patented design that gently stimulates muscles to support mouth closure without forcing the mouth shut. Unlike traditional tape, it allows mouth puffing and permits emergency opening.	Mute Mouth Tape is designed to be placed over the middle of your mouth and to keep either side of the mouth free, a design that enables users to learn how to keep their mouths closed at night without feeling restrained.	SomniFix mouth tape has a breathing vent and a custom adhesive that peels off without pulling on facial hair, lips, or skin. SomniFix has undergone extensive clinical and biocompatibility studies to ensure both efficacy and safety. SomniFix is also proudly made in the USA.	The founder originally created VI02 Mouth Tape "for my son to help with his mouth breathing. Along the way, I discovered that mouth taping helped me sleep better and wake up with more energy, which inspired me to design something that truly works for everyone." VI02 is thoughtfully made to fit all face shapes, infused with gentle skincare ingredients, and designed to be comfortable and approachable. Made in the USA. Free of PFAS and other forever chemicals.
Made of	organic bamboo silk, medical-grade adhesive	elastic rayon, cotton	cotton, hypoallergenic and skin-friendly glue	medical-grade tape	silicone	medical-grade adhesive, cotton, spandex
